STAGEPAS 200

MOVE THE AIR, MOVE YOUR AUDIENCE.

This feature-packed, little magic cube allows you to take your performance literally anywhere. Alongside its portability and sound quality, it offers ample functionality and mixing capacity, intuitive operation and support for Bluetooth audio streaming and remote control. Available with an optional battery pack, STAGEPAS 200 is suitable for a wide range of applications, from street performances to events, parties and speeches.

Mix it up
The STAGEPAS 200 offers all the connectivity, performance functions, and mixing capability you would ever need for small-scale duo or trio performances — all packed into a compact 300 mm cube-style cabinet.

Equipped with a digital mixer that can be controlled remotely for up to 5 channels, 3 mic preamps, and a comprehensive range of practical functions.
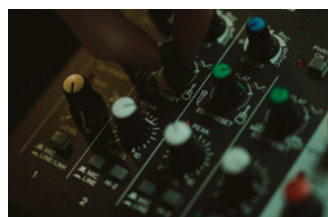

Dial in and vibe out
The simple, intuitive operation of the STAGEPAS 200 makes dialing in your ideal sound easy. Each channel is equipped with a 1-knob EQ/preset and SPX digital effects along with the master output MODE compressor, enabling fast yet powerful adjustments to your sound. The channels 1-3 feature microphone simulators included in 1-knob EQ/preset to easily add further authenticity to acoustic guitars.
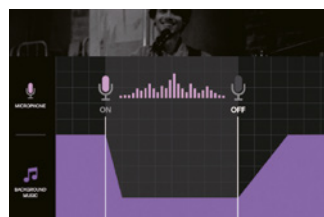

Smooth operator
The STAGEPAS 200 is equipped with adaptive functions that will help to hone your tone. The onboard Priority Ducker will automatically attenuate background music or secondary signals when inputs from a primary microphone or a specific sound source is detected.

The intelligent feedback suppressor function will automatically eliminate unpleasant feedback that can occur in a live situation.

STAGEPAS 200

CONVENIENT, CREATIVE REMOTE CONTROL

The STAGEPAS Controller app, for both iOS and Android devices, gives you real-time remote control of both volume and EQ. Additionally, the app allows for more precise adjustment detail than the main unit's interface such as EQ, Reverb, Compression, Microphone simulators, Ducker, etc. to maximize the capabilities of your STAGEPAS 200. You can save these settings in "scenes" stored on the app to be recalled any time for consistent sound and reduced setup time.
